Standard Operating Procedure for Shipping Soil Samples

- Geotech.org will inform shipper to address shipment exactly as written on the approved Soil Permit and Compliance Agreement and supply a copy of the Soil Permit to be included with the shipment.
- All shipments of foreign soil will be shipped by bonded carrier from port of arrival to Geotech.org, 4945 South Routt Street, Littleton, CO, 80127.
- Shipper will be informed that all shipments of foreign soil will be shipped in sturdy leak proof containers that will preclude spillage or pest escape in transit and while samples are awaiting processing. Shipper will be instructed to use quart sized Zip-Lock brand freezer bags for soil sample collection.
